Forecast for Sunday 13 Jun 2021

Weather: Low cloud together with some patchy light rain will clear away northwards through the morning, although lingering across Lochaber and Mull through the day. Then most ranges dry with some strong sunshine before low cloud and rain edge back southeast across Argyll and Kintyre later in the afternoon, and elsewhere through the early evening. Rain at times expected in the evening.

Chance of cloud free mountain/hill tops above 800m: 60%

Visibility: Poor in low cloud down to 500 metres in the morning, locally 200 metres across coastal ranges in the northwest. Then cloud lifting off most summits by the afternoon. Low cloud down to 500 metres returning across all ranges later in the afternoon and evening. Cloud will briefly lift on summits for a time in the early to mid-evening before clamping down again.

Met Office Aberdeen Meteorologist's View

Be prepared for sunburn and dehydration on long hikes away from the northwest. Strong winds at height with gusts to 50 mph or so on the higher tops.

Forecast for Monday 14 Jun 2021

Weather: Chance of a few light showers, mainly across Argyll and Lochaber. Otherwise often dry with some sunny intervals. Windy with westerly gales at height making feel it cold.

Maximum wind: Westerly gusts to 50 or 60 mph on the higher tops

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Generally very good with some patchy cloud around 800 to 1000 metres, this mainly across the north

Temperature: **Glens:** Plus 6 rising to 17 Celsius
At 800m: Plus 7 Celsius
Freezing level: Above summits
